## Image Adjustment & Retouching

Due to the limitations of physics and modern photographic technology, some images are just plain harder to capture and print than others. When we get these images, it frequently requires extra time for us and sometimes extra cost for you.

We occasionally get requests to digitally repair a painting or to remove a distracting element from a photograph. Anything is possible, but with greater complexity comes additional cost.

When we encounter a difficult image or a request to make alterations, it is likely that it will require extra time for us, and cost for you. When this happens, we will provide you with an estimate prior to proceeding with your order. Billable in quarter hour increments: \$150.00 per hour (\$37.50 minimum)
